

Nexoborde Sample WCAG Report

Accessibility readiness snapshot | US local-government website

This sample shows the shape of a technical review, not a legal certification.

04 FINDINGS

01 HIGH color-contrast WCAG 1.4.3

Insufficient contrast in a public notice component.

Recommendation: update the component tokens and test focus states.

02 HIGH image-alt WCAG 1.1.1

Informative images do not have equivalent text.

Recommendation: add concise alt text or mark decorative images.

03 MEDIUM link-name WCAG 2.4.4

A link does not communicate its destination to assistive technology.

Recommendation: give the link an accessible, specific name.

04 LOW document-title WCAG 2.4.2

A page title does not identify the current public service page.

Recommendation: set a unique, descriptive title in the page template.

SCOPE: HTML review of a small set of public pages.

LIMITATION: This report is not legal advice, a certification, or a guarantee of compliance with ADA Title II, WCAG, or any other law or standard.
